

## VERTI-GRO AT A GLANCE

**Verti-Gro Inc.** is a diversified agricultural and home gardening company. The following is a list of some of the more important features of **Verti-Gro** that make it a very unique company with a great future.

1. **Verti-Gro Inc.** is a greenhouse company that not only manufactures and provides for the commercial agricultural industry but for the home gardening industry as well. The home gardening industry has over 80 million buyers of gardening products. The home gardening industry is one of the largest and fastest growing industries in the world.
2. **Verti-Gro Inc.** has 2 patents, one for the design of the vertical stacking pot and one for the design of the residential hydroponic vertical gardening system. These patents do not expire until the year 2010.
3. **Verti-Gro Inc.** owns the molds to make the pots as well as the molds for the residential hobby tanks and lids. These molds can be shipped direct to customers from over 25 factories worldwide. We also have a new mold in Dubai, United Arab Emirates and in South Africa and will soon start manufacturing in Europe
4. **Verti-Gro** has a proven unique product line of vertical gardens ranging from \$29.95 for a "Portable Garden" to \$449.95 for our largest 3 stack residential **vertical garden that can grow a minimum of 84 plants in only 12 square feet.** We also have an out door automatic vertical garden for under \$130.00. The pots used in these systems are the same as used in the commercial system and are guaranteed for 5 years. We have 3 of the 3-stack vertical gardens on display at **Disney World's Epcot Center in Florida** at "**Living with the Land**" greenhouse.
5. **Verti-Gro** has over 30 years of commercial growing experience in hydroponics and in greenhouse crops. No other greenhouse company has this much experience to offer to their customers. No other company can claim this long history of success. **Verti-Gro** is presently setting up dealers across the US for the home gardening market.
6. **Verti-Gro** has its own proven proprietary hydroponic nutrient formula that was developed in 1966 and has been used by commercial growers for over 30 years. This formula is now packaged in 1,3,5, and 25-pound bags for wholesale and retail. This formula is the key to the success of the commercial systems and our vertical gardens. We could now enter into markets such as **Home Depot, Lowes, Scotty's**, etc...

7. **Verti-Gro** has the first complete organic formula that can be used in our organic growing media. **Verti-Gro** has made organic growing for the home gardener and commercial grower easy. The organic fertilizer is sold in quarts, gallons, 5 gallons and 55-gallon drums. The organic base material is sold in bags.
8. **Verti-Gro** has over 7 years of experience in commercial strawberry production in vertical towers. This technology far surpasses any other vertical growing technology in the world and it is offered at a very reasonable price. This technology could replace how strawberries are grown in the future, especially on small farms that do direct sales. **Verti-Gro** also offers a complete line of commercial greenhouses from 12' wide to 30' wide by any length.
9. **Verti-Gro** now has several organic strawberry growers using the **Verti-Gro** pots. This is the first time that organic strawberries have been grown in vertical systems. Organic strawberries bring 2 to 3 times the price of regular strawberries. Pesticide free fruits and produce are already in high demand.
10. **Verti-Gro** offers the only complete hobby greenhouse that is patterned after a proven commercial design that utilizes less energy and is guaranteed for 5 years with a covering guarantee of 10 years. This is the first line of residential greenhouses that are patterned after commercial designs and have a complete hydroponics or organic growing system that fits each greenhouse. No other greenhouse on the market matches the quality, strength, and ease of assembly yet functions like a commercial greenhouse.
